2006-1: What we learned

- Service site visit locations limited by logistics (Ex. USMC/Quantico, USA/Fort Carson)
- All timelines were tight, that will continue
- E9’s can, and want to, learn
- The course is necessary (“Keystone is definitely making a difference in the lives of those of us that thought we are too old to learn new things”)
- Special Ops was missing
- Networking/bonding started immediately

Keystone 2006-2 Changes

- Adding course pre-requisites (honor system):
  - Joint PME for SNCO (online)
  - read-a-head (how each service trains, operates, equips to support CoCom)
- Educational teambuilding event / “What have you learned” (depending on schedule placement)
- The Long War (JS-J5)
- Added Special Ops
- Added JIATF-S (why? Joint, Interagency, DHS)
- Keep USCG site visit, cancel others
  - Sector Key West, combine with JIATF-S visit
- Added CIA
- Last reception availability with Capstone class

2006-2: What is scheduled
